### Underground Utility Relocation

### Relocation of direct buried tunnel utilities

Owner: UNH – Durham Campus  
Location: Durham, New Hampshire

Scope: The project consisted of installing Direct Buried Steam, Condensate, and Heating Hot Water piping from the UNH Power Plant thru the major sections of College Road and Library Way to feed the rest of the campus at the Durham, NH location. The purpose of the project was to replace the existing piping which was running thru concrete tunnels from the Power Plant which were deteriorating and starting to fail. This was accomplished while maintaining all services to the University.
